Information Age Transformation: Network Centric Warfare

Office of Force Transformation

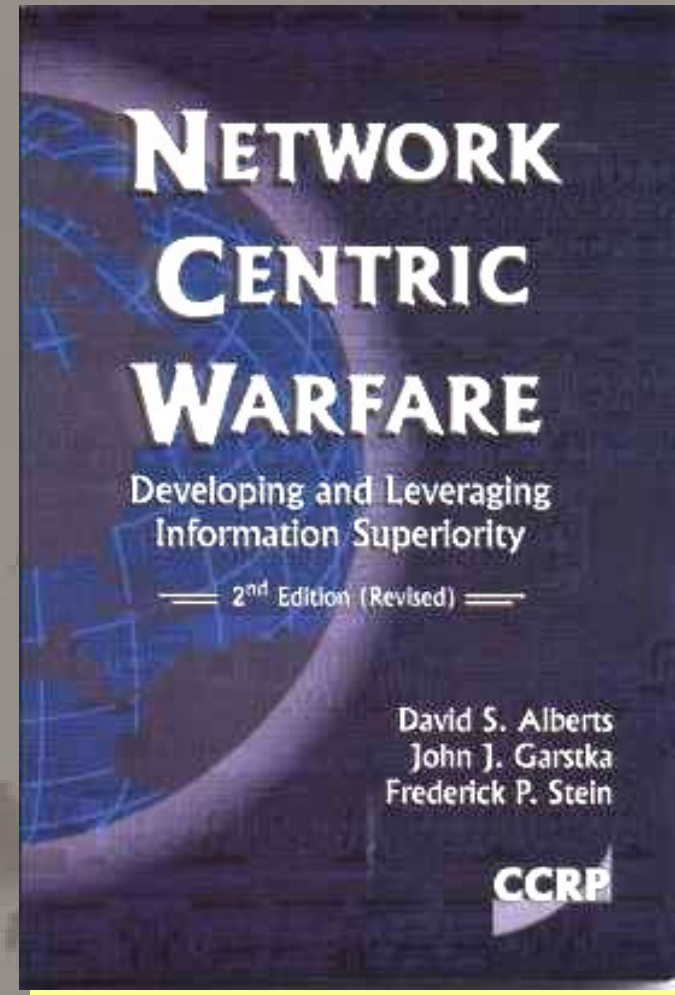

**Translates an Information Advantage
into a decisive Warfighting
Advantage**

Information Advantage - enabled by
the robust networking of **well
informed** geographically dispersed
forces

Characterized by:

- Information sharing
- Shared situational awareness
- Knowledge of commander's
intent

Warfighting Advantage - exploits
behavioral change and new doctrine
to enable:

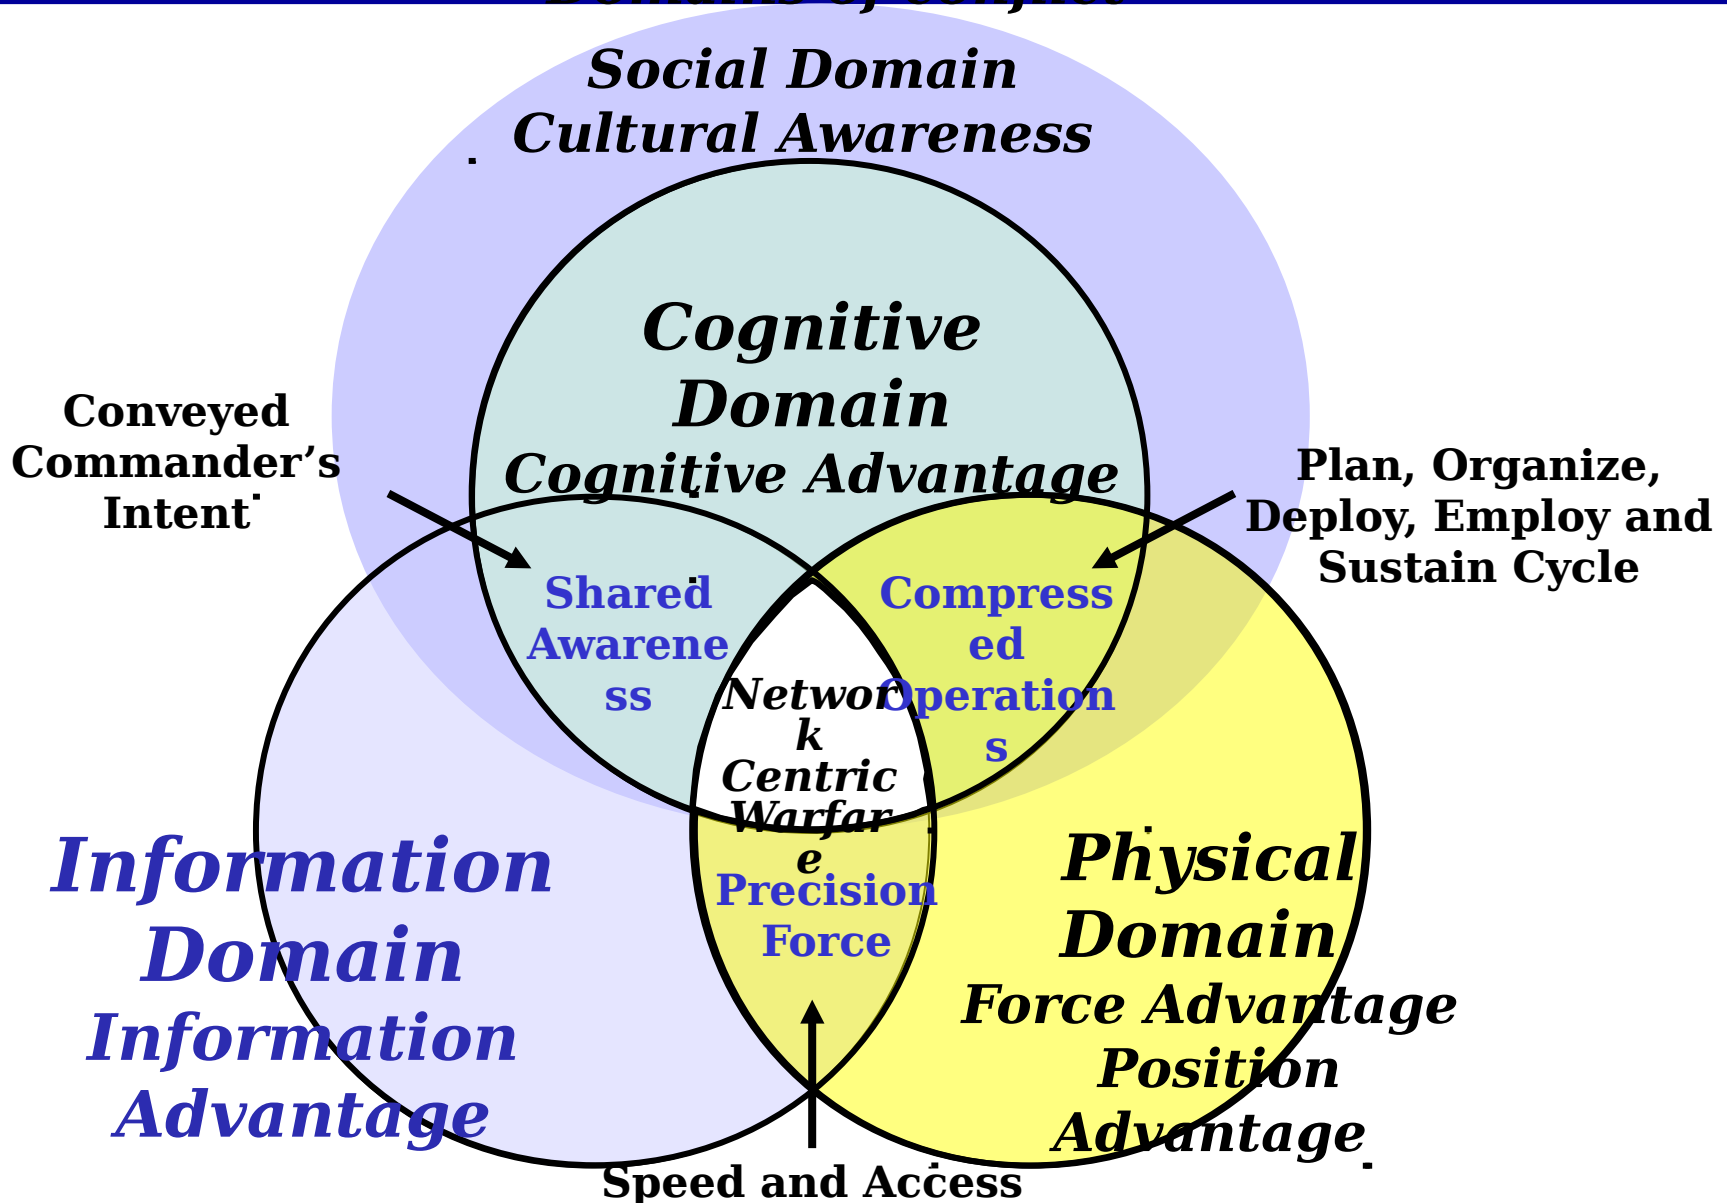

Exploits Order of Magnitude Improvement in

Information-Age Warfare

Office of Force Transformation

Domains of conflict

...

Tenets of Network Centric Warfare

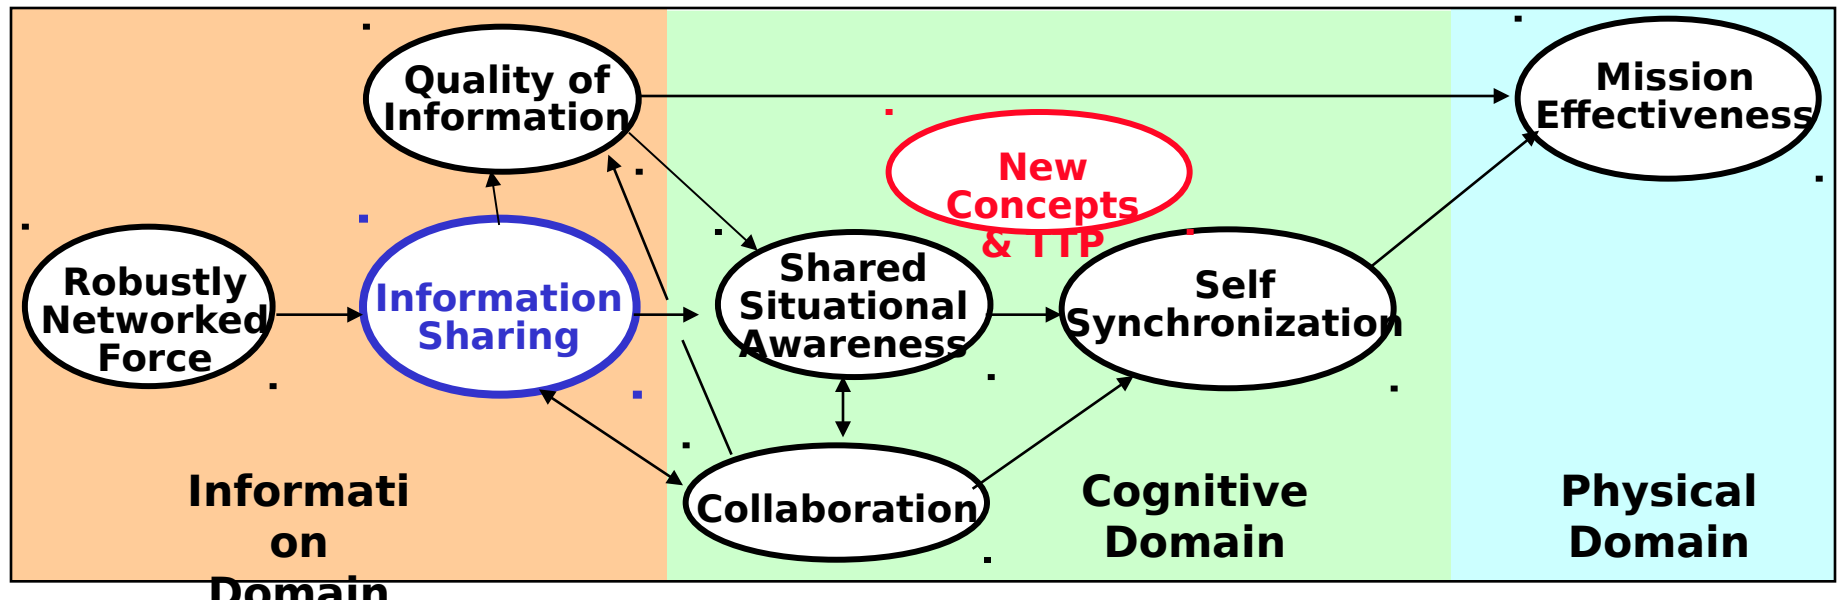

Office of Force Transformation

Tenets of NCW: A Hypothesis Regarding Sources of Power

- A robustly networked force improves information sharing
- Information sharing and collaboration enhances the quality of information and shared situational awareness
- Shared situational awareness enables collaboration and self synchronization, and enhances sustainability and speed of command
- These in turn dramatically increase mission effectiveness

~~DoD Report to Congress on Network Centric Warfare~~

Top Level Measures for Exploring NCW Hypothesis

Bottom Line

Office of Force Transformation

Networked Forces
Outfight
Non-
Networked Forces

Warfighting Advantage: Evidence

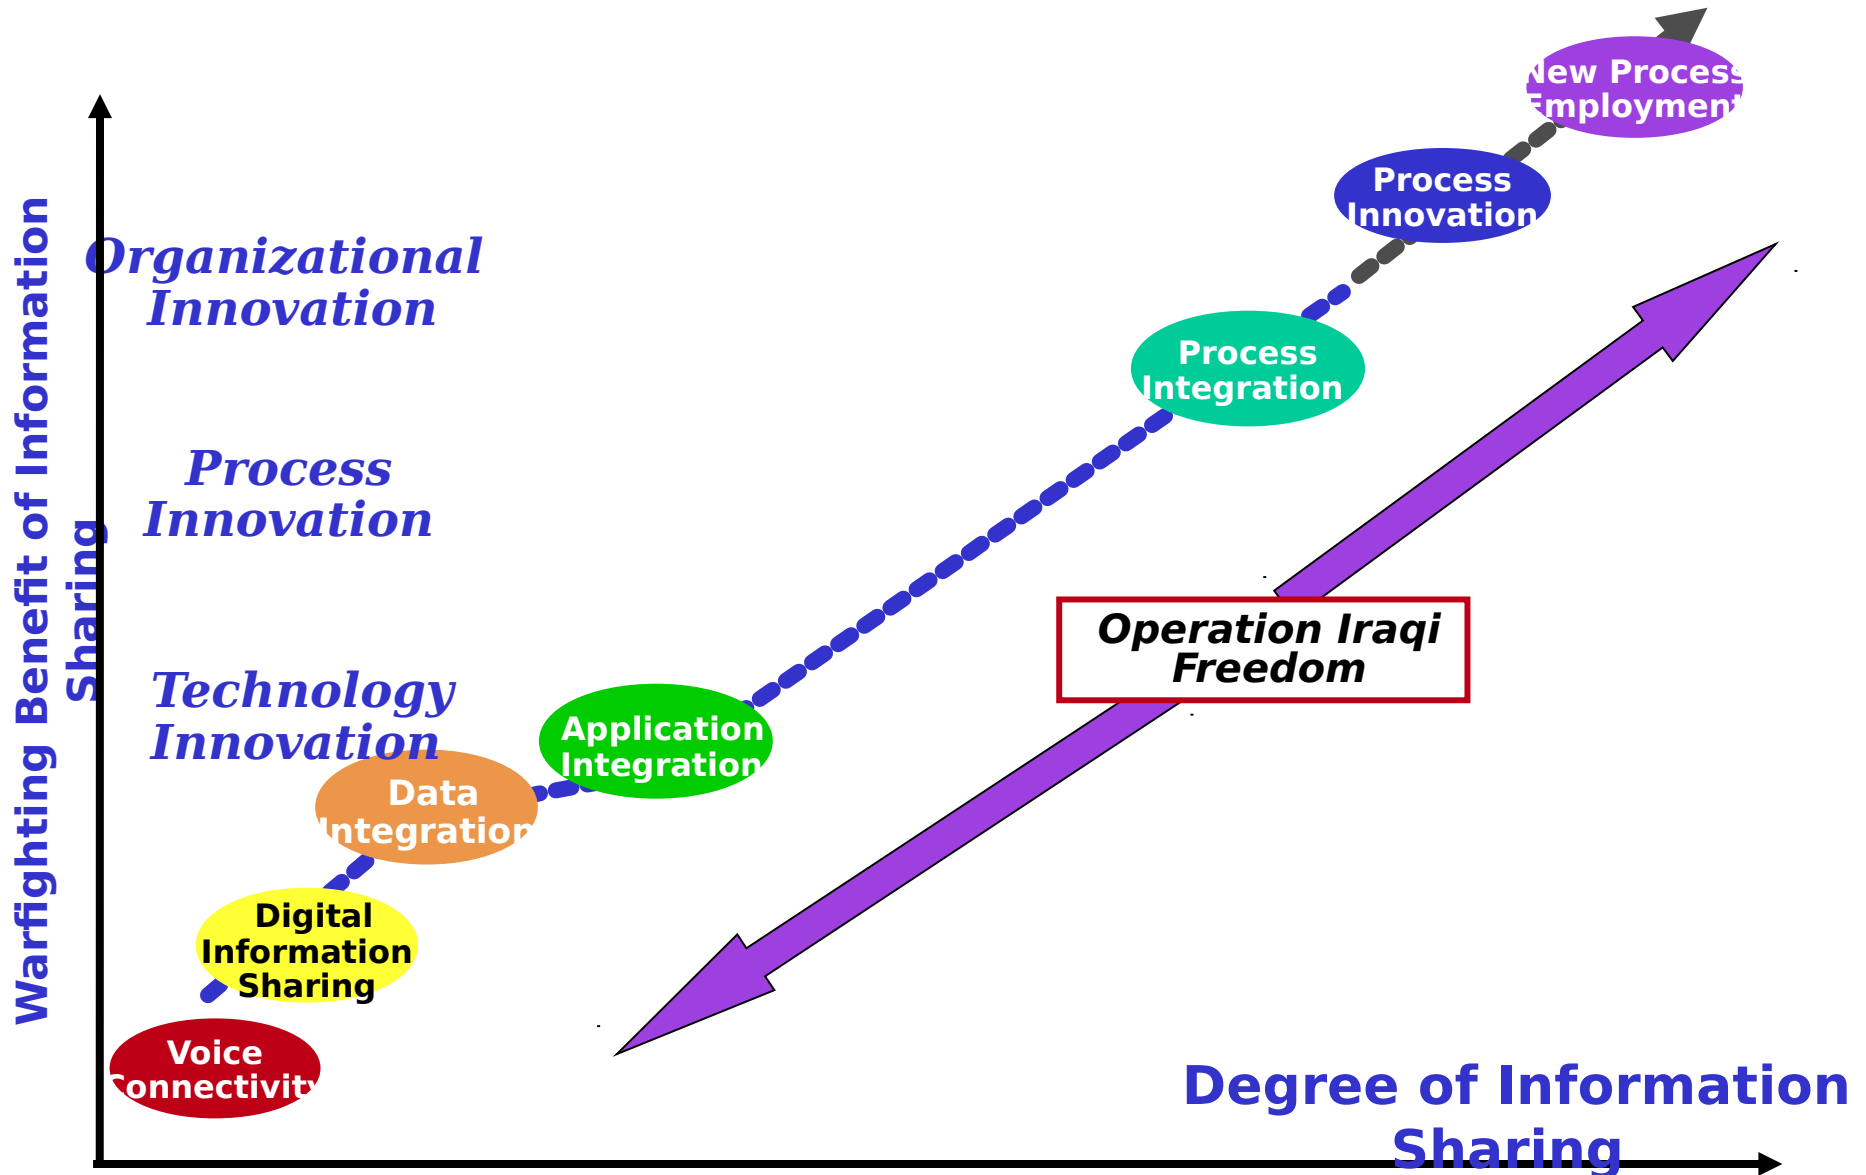

Office of Force Transformation

- **Precision Engagement - Networked Air and Ground Forces**
 - Networked Air and Ground Forces decisively defeat OPFOR at night (USA Division Capstone Exercise - Phase I, Apr 2001)
 - Networked Air and Ground Forces decisively prosecute counter TBM mission (*Operation Iraqi Freedom - Western Iraq*)
- **Full Dimensional Protection - Counter Air**
 - USAF found F-15Cs, working with data links (shared awareness), increased kill ratio by over 100% -- 2.6:1 for both Day & Night Ops (JTIDS Operational Special Project - Mid 1990's)
- **Dominant Maneuver**
 - Networked coalition forces demonstrate unprecedented operational agility and speed of maneuver in defeating opposition forces (*Operation Iraqi Freedom*)
 - Networked Stryker Brigade decisively engages OPFOR at JRTC -- 10 fold reduction in loss/exchange ratio from 10/1 to 1/1 (2003-2004)

Implementing NCW

...Trajectory of Innovation and Experimentation

Office of Force Transformation

Concept of Operation: Operation Iraqi Freedom (OIF)

Office of Force Transformation

Three Theaters:
Southern - Center of Gravity
West - Stop scuds, monitor movements
North - Economy of Force

OIF: Western Iraq: Integrated Air - Ground Ops

Office of Force Transformation

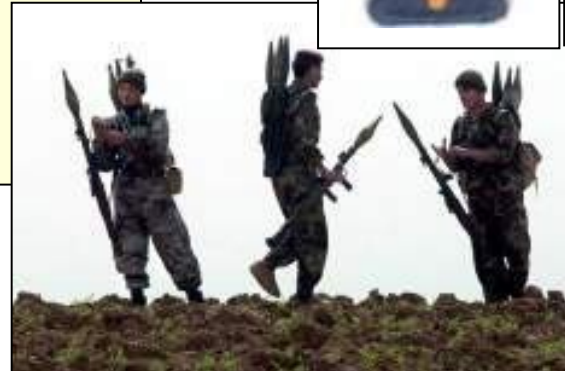

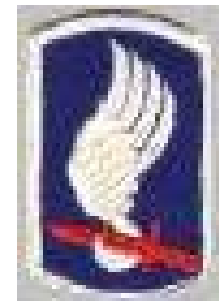

- **Controlled by Air Component Commander (ACC)**
- **Special Operation / Air Force focus**
- **Non-contiguous --- non-linear**
- **Robustly Networked Force**
 - **100% Air Craft Data Linked**
 - **Ground (BFT) to ACC to Aircraft**

OIF: Northern Iraq

Office of Force Transformation

- **Controlled by Land Component Commander (LCC)**
- **Special Operations, Light Forces , Airborne Drops and Indigenous Forces**
- **Seizer of Northern Oil Fields**
 - Non linear, air-to-ground
- **Non Doctrinal:**
 - **Special Forces C2**

OIF: Southern Iraq

Office of Force Transformation

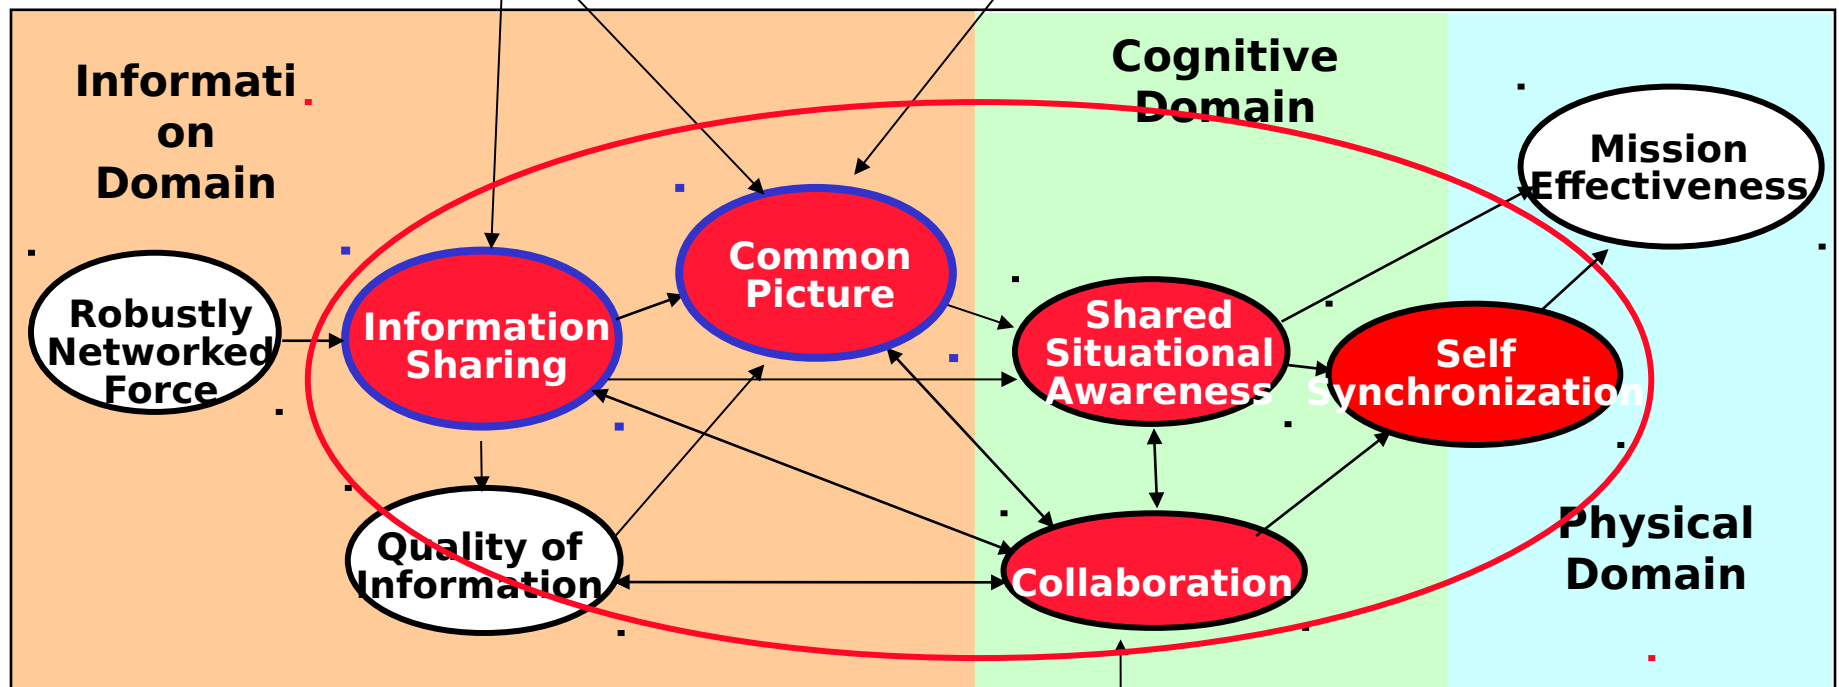

- **Controlled by V Corps / 1st MEF**
- **Traditional land battle w/heavy Joint & Coalition flavor**
 - **Very high operational tempo**
- **Networking of distributed ground force commanders via SATCOM**
- **Enhanced Relevant Common Operational Picture**

Delivering **Situational Awareness** to forces supporting current stability operations in **Baghdad**

“When my TF seized a key highway intersection south of Baghdad, I could see the company commander icons at each blocking position and I knew we had control of the objective.”

- LTC John

Charlton, Cdr TF 1-15-3 ID

Quotes From OIF/OEF (1 of 2)

Office of Force Transformation

“The bottom line is that FBCB2/BFT presented me with accurate information/knowledge as a Task Force Commander, and as a result I felt as though I was making better tactical decisions”

- LTC, Commander, 2/504 Parachute Infantry Regiment

“A soldier with absolutely no training on BFT could literally sit in front of it for 10 minutes, experiment, and have it figured out enough to get any information we needed off of it.”

- 326th Engineering Battalion

“FBCB2 cleared the whole command net so we could focus on maneuver”.

■ CPT Tim Terese, 3 ID Main

“The single most successful C2 system fielded for OIF was the FBCB2-BFT system...BFT gave commanders situational understanding that was unprecedented in any

Quotes From OIF/OEF

(2 of 2)

Office of Force Transformation

“I’m the lead company of the lead TF of the lead Brigade... There was nobody to my front.. I was able to look at my screen and see where friendly units were to my left, right, and to my rear. I was able to pass that information immediately down to my platoons so fratricide was basically eliminated”

- CPT Stewart James, Commander, A-2/69 AR, 3ID

“The whole squadron was in column on a highway. FBCB2/BFT displayed the locations of all blue forces. I knew the location of observed red, and was able to call for fire based on FBCB2/BFT knowledge”

**- CPT, Commander, A Troop 3/7 Cavalry
Regiment, 3rd Infantry Division**

“Our counter battery radar picked up rounds through the Marine sector. Prior firing counter batter, the Fire Officer checked the BFT screen and ascertained that a 3ID unit (Army) had crossed over into the Marine sector and as firing at the

Getting the Theory Right: Command and Control of a Networked Force

Office of Force Transformation

What's Different?

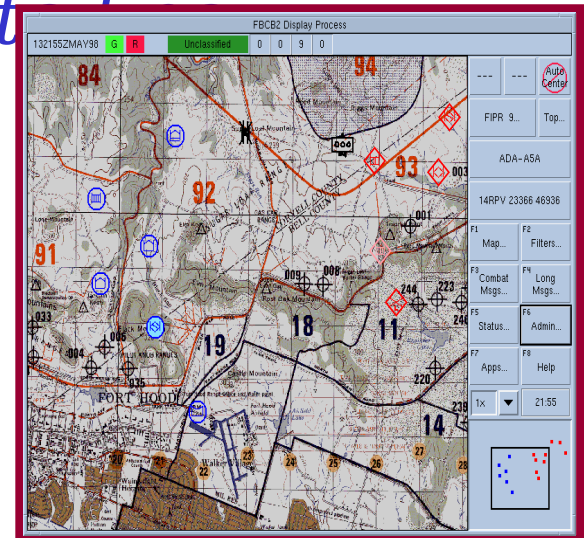

- **“Common” Operational Picture**
 - Reduced “Fog” of War
- **Shared Situational Awareness (SA)**
 - **Significantly increased SA for :**
 - Commander
 - Subordinate Commanders
 - Individual Warfighters
 - **Decreased “cognitive loading” in developing SA**
- **Command Intent**
 - Increased shared situational understanding
 - Enhanced by capabilities for real-time collaboration
- **Enhanced Speed of Decision Making**
- **Increased Tactical Agility**
- **Reduced Risk**

Increased Situational Awareness - Reduced Cognitive Loading

Office of Force Transformation

“... sitting on top of a moving turret, talking into the radio, trying to control the vehicle, getting a red flashlight, finding the map, looking at the map, figuring out where I am with the PLGR (GPS), back to the map...with FBCB2 I didn't have to do any of that to find where I was.”

- CPT, 7th Cavalry Regiment

Command and Control of a Networked Force

Implementing NCW: A Perspective on Strategy

Office of Force Transformation

- Get the Theory Right
- Apply the Theory Enterprise Wide
- Accelerate Networking of the Joint Force
- Accelerate Deployment of Network-Centric Systems, Concepts, and Capabilities
- Address Challenges of Allied & Coalition NCO
- Experiment with Network-Centric Concepts and Capabilities
- Develop Mature TTP for NCO
 - Service/Combined/Joint/Allied and Coalition
